

1- Headings

how to give headings in markdown file

Heading 1

Heading 2

Heading 3

Heading 4

Heading 5

Heading 6

2- Block of Words

This is a normal text in markdown

This is a normal text in markdown

This is a normal text in markdown

This is a normal text in markdown

3- Line Breaks

This is 40 days long course of data science with Python AKA Python_ka_Chilla with baba_Aammar.

I am learning python with baba_Aammar.

4- Combine two things

Heading 2

5- Face of text

Bold, italic, bold and italic

Bold #(most people used double enter for next line)

italic *** bold and italic***

Or you can use these symbols

_ (underscore) **Bold**

italic

6- Bullet Points / Lists

- Day 1
- Day 2
- Day 3
 - Day 3a (press tab)
 - Day 3b
- Day 4
- Day 5

Numbering of lists

1. Day 1
2. Day 2
 - Day 2a
 - Day 2b
3. Day 3
4. Day 4

using * or + (if you want to bold, use __)

- One
- One

7- Line breaks or page breaks

This is page 1.

This is page 1.

This is page 1.

This is page 1.

This is page 1.

This is page 1.

(by using -, _ and *, you can add line)

8-Links and Hyperlinks

<https://codanics.com/> (add your link, you get hyperlink)

To form a kind of link such as to play the video, click here

[The python ka chilla is here](#)

a third type of creating link is below [Codanics youtube channel]:<https://codanics.com/courses/>

9- Images and Figures with links

To join us scan below picture: [QR](#)

To get pic in markdown sheet, do like below

you can also add pdf like this and your pdf should be in the same directory

FOR ONLINE PICS [codanics](#)

If you want to add any online-flowchart, follow the above method.

10- Adding code or code block

To print a string use `print ("Codanics")`

```
print ("Hello")
```

Below example is for **block of code** and you get *copy* option of your code.

code for coloring in python (detail of your code is here)

```
x=5+6
y=6-2
z=x+y
print (z)
```

code for coloring in R (detail of your code is here)

```
x=5+6
y=6-2
z=x+y
print (z)
```

11- Adding Tables

Factors	Stability	Deg RH-B	Deg RY
Time	5	10	15
pH	6	12	50
Temp	8	16	60

(to align your table use : around --- in the middle of your column)
: for left, : for right, --- for middle

12- Contents (TOC)

always put \ to separate each line. first select [] and then (), and then use # in () with respective numbers (start from 1 to son on)

- Headings
- Block of Words
- Line Breaks
- Combine two Things
- Face of Text
- Bullets Points
- Line Breaks
- Links and Hyperlinks

- Images and figures with Links
- Adding Code or Code Blocks
- Adding Tables
- Table of Contents
- Install Extensions

13- Install Extensions

Sample text

(now, if you right click on text, no option)
So, you need to install extensions

- Markdown All in One
- Markdown PDF
- Markdown Lint
- Markdown shortcuts
- pdf (vscode-pdf)

install all of them and restart vscode.

you can bold, italic by same keys as in **WORD**

sample text

sample text

sample text

Select Text -> Right click -> Select your function

image -> select text -> right click -> toggle image -> write name of image file

Right click -> add tables or table with headers -> **Export markdown** in PDF, PNG, or all, select your method, it will download, you can see in VS-Code and also in your dicrectory.

Column A	Column B	Column C
A1	B1	C1
A2	B2	C2
A3	B3	C3
